AI Quickstart for AI at the car dealership

The realistic AI use cases on one page — no hype, with clear limits.

AI at the car dealership: listings and enquiries, not the sale

- 1. Write appealing vehicle listings
- 2. Answer enquiries and test-drive appointments
- 3. Explain financing and warranty clearly
- 4. Write follow-up and review emails

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
