AI Quickstart for AI in the bakery

The realistic AI use cases on one page — no hype, with clear limits.

AI in the bakery: counter, social and admin, not the baking

- Social media posts about the day's offer and the season
- Notices, price-label texts and job ads
- Drafting supplier and order emails
- Answering customer enquiries and special orders

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
