

AI Quickstart for AI in hotels and guesthouses

The realistic AI use cases on one page — no hype, with clear limits.

AI in hotels and guesthouses: guest emails, not hospitality

- 1. Answer guest enquiries personally and quickly
- 2. Word check-in/check-out info and house rules clearly
- 3. Write inviting room descriptions, offers and local tips
- 4. Keep review replies, cancellation and pricing emails guest-friendly

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
