# AI Quickstart for AI in speech therapy

The realistic AI use cases on one page — no hype, with clear limits.

---

AI in the speech therapy practice: admin and parent info, not the therapy

- 1. Phrasing appointment and parent info clearly
- 2. Structuring correspondence with insurers and doctors
- 3. Drafting general exercise handouts for home
- 4. Practice notices and internal texts

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
