

AI Quickstart for AI for notary offices

The realistic AI use cases on one page — no hype, with clear limits.

AI for notary offices — where it really saves time

- 1. Draft client appointment emails
- 2. General explanatory texts about the process
- 3. Checklists of documents to submit
- 4. Rough drafts for standard letters
- 5. Order follow-ups and reviews

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
