# AI Quickstart for AI for opticians

The realistic AI use cases on one page — no hype, with clear limits.

---

AI for opticians: appointments and customer info, not the eye test

- 1. Wording appointment reminders and customer messages
- 2. Drafting social posts about glasses, brands and promotions
- 3. Preparing general care and info texts
- 4. Writing review and follow-up emails

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
