# AI Quickstart for AI for home care services

The realistic AI use cases on one page — no hype, with clear limits.

---

AI in home care: organisation and communication, not the care

- 1. Phrase family updates with care
- 2. Draft rota and team communication
- 3. Templates and drafts for recurring correspondence
- 4. Structure correspondence with insurers and doctors

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.

---
