AI Quickstart for AI in freight forwarding

The realistic AI use cases on one page — no hype, with clear limits.

AI in freight forwarding: quotes and communication, not the transport

- 1. Quotes and replies to freight enquiries
- 2. Customer communication and status updates
- 3. Internal dispatch and team texts
- 4. Sales and follow-up emails

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
