AI Quickstart for AI in the veterinary practice

The realistic AI use cases on one page — no hype, with clear limits.

AI in the veterinary practice: appointments and owner communication

- 1. Phrasing appointment and vaccination reminders
- 2. Writing aftercare and recovery notes clearly
- 3. Answering enquiries and emergency questions calmly
- 4. Standardising invoice and cost-estimate texts

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
