# AI Quickstart for AI for translators

The realistic AI use cases on one page — no hype, with clear limits.

---

AI for translators: the admin around the work, not the translation itself

- 1. Drafting quotes and cost estimates
- 2. Client communication and project coordination
- 3. Structuring glossary and terminology upkeep
- 4. Invoice and follow-up emails

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
