AI Quickstart for AI for management consultants

The realistic AI use cases on one page — no hype, with clear limits.

AI in consulting: drafts and research, not the strategy

- 1. Structure presentations and agendas
- 2. Summarise background research and data analyses
- 3. Draft minutes, project documentation and lessons learned
- 4. Reporting drafts and proposal or pitch structure

Limit: AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
