# AI Quickstart for AI for insurance brokers

The realistic AI use cases on one page — no hype, with clear limits.

---

AI for insurance brokers: sort enquiries, don't advise

- 1. Document claims and draft information letters
- 2. Lay out cover and policy differences understandably
- 3. Explain commission and the broker role transparently
- 4. Answer standard service requests and create checklists

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
