# AI Quickstart for AI in the dental practice

The realistic AI use cases on one page — no hype, with clear limits.

---

AI in the dental practice: less scheduling chaos, more time at the chair

- 1. Drafting recall and appointment reminders
- 2. Answering pain and anxiety enquiries with composure
- 3. Explaining treatment and cost plans in plain language
- 4. Standardising hygiene notes and insurance queries

**Limit:** AI gives you drafts, no guarantees. The professional and legal final check always stays with you.
